TO WHOM IT MAY CONCERN:

RE: Bendix Imaging

I met Jeff Bendix after I started working at Verifications, Inc. In the two years that I have known and worked with Jeff, he and his staff have provided exceptional service to our company. Jeff responds immediately to all our service and product delivery needs. If I have any questions about our printers or other equipment, he is friendly, very knowledgeable and always willing to help us out.

Jeff's customer service skills reflect the type of service that we receive from his entire staff. Anyone that I have to work with at Bendix Imaging is quick to answer questions or relay messages to the proper individual.

I would highly recommend Bendix Imaging to anyone who is looking for quality office imaging supplies and products.

If you have any further questions, please feel free to contact me at (605) 884-1200 or (800) 247-0717.

Sincerely,

Marc Huber
