TO WHOM IT MAY CONCERN:

RE: BENDIX imaging

I was first introduced to Jeff and BENDIX imaging at Verifications Incorporated. I found Jeff and his staff to be very friendly and knowledgeable about their products. They manage all aspects of our company's printing fleet with the XPERTVIEW print management system. Our print related helpdesk calls have decreased dramatically due to the proactive service and support provided with the XPERTVIEW system.

BENDIX imaging has always been quick to support an issue which keeps our downtime minimal. They work to keep our printers, copiers, and fax machines running at optimal performance and perform preventative maintenance on a regular basis.

I would highly recommend Bendix Imaging to anyone who is looking for quality office imaging supplies and products.

If you have any further questions, please feel free to contact me at (605) 884-1200 or (800) 247-0717.

Sincerely,

Justin Brotzel
Systems Administrator
